INTERNSHIP EXPERIENCE

Summer Intern, Investment Product Development&Governance, ZA Bank, Hong Kong

06/2026-08/2026

- **Post-trade Monitoring:** Conducted 120+ sample transaction tests and document verifications for Stockback, ZA Card and RIS wealth management reviews. Optimised monitoring checklists and test templates, cutting manual verification time by 30%.
- **Trade Surveillance:** Processed 113 HK stock alerts and 74 US stock alerts, categorising alerts into six market misconduct categories. Boosted template management efficiency by 70%.
- **Client Reviews & Compliance:** Conducted KYC checks and monthly CRPQ reviews, including verification of 300+ customer proof-of-address documents, identifying 3 non-compliant cases. Tracked 23 audit and compliance remediation actions to 100% on-time closure.
- **Regulatory Research:** Analysed US AML/CTF regulations and SFC virtual asset requirements. Authored a gap analysis report with 12 actionable optimisation recommendations.

Summer Intern, Wealth Management Dept., GF Securities, Fujian

07/2024-/08/2024

- **Data Analytics:** Leveraged Wind and Python to process macroeconomic data across 10+ provinces and 50+ cities, building a credit assessment dataset to support fixed-income investment and regional risk evaluation.
- **Client Due Diligence:** Supported wealth management due diligence for high-net-worth clients; compiled profiles for over 30 clients and drafted business documentation. Coordinated securities & options training sessions, recognised by the Regional General Manager.
- **Research Summary:** Summarised macro strategy and industry research reports, distilling key findings for internal and client use.

Summer Intern, Xiamen Bank, Fujian

07/2023-08/2023

- **Client Service & Verification:** Answered client questions and handled daily transactions, dealing with more than 60 client requests each day. Directed clients to relevant teams, raising front-desk work efficiency by 20%.
- **Credit Document Review:** Helped account managers organise post-loan documents, including certificate applications and early repayment requests. Assisted in filing branch credit records and received positive feedback from colleagues.

Summer Intern, Securities Business Dept., Guotai Jun'an Securities, Xiamen

07/2022-08/2022

- **Client Risk Assessment:** Understood client investment needs, talked with 30 potential clients and reactivated 5 inactive accounts with new asset inflows. Helped plan client activities.
- **Data Analysis & Reporting:** Collected and cleaned stock and fund data using Excel PivotTables to spot market trends. Prepared daily market summaries to support the investment team.

PROJECT EXPERIENCES

AI-Powered Post-Trade Review Platform

06/2026-09/2026

- Developed a standalone web review tool leveraging Claude API for LLM document verification. Defined 50 virtual asset validation rules to auto-compare official templates covering 4 product categories and 3 languages, with concurrent bulk upload capability.
- Project Outcomes: Attained 92% accuracy in anomalous transaction identification and 70% higher template maintenance efficiency; fully rolled out into production.

Leader, National College Students Innovation & Entrepreneurship Project:

09/2023-09/2025

Artificial Intelligent Garbage Classification and Recycling Platform

- Investigated the implementation of garbage classification, distributed questionnaires, and conducted data analysis and processing using software like SPSS;
- Regularly inspected the intelligent garbage recycling bin, repaired and updated the system;
- Designed and developed intelligent devices adapting to software systems, and collaborated and promoted our device with third parties (already reached cooperation agreements with many schools).
